## Addition Features, Equipment or Comments

Complete logbooks upon request!

We are gathering more information and more pictures for this listing at the moment!  
Received listing contract on 7/9/17.

Damage: The last owner started the engine with the tow bar in place causing a prop strike and damage to the front gear door and lower cowl. The cowl was repaired and the gear door was replaced. The engine was torn down and inspected IAW with regulations and afterward flown to TBO. It has since been OH'd in 2012. The repairs are well documented. (Not a gear-up scenario)
