Summary	<p>Do you want to go really fast? Here is your chance to own one of the fastest single engine airplanes available! The Lancair IV-P is all about going fast while enjoying the flight in pressurized comfort. With a service ceiling of 29,000' (pre-RVSM) this twin-turbo TSIO-550 will really stretch its legs in the flight levels. Built by Jeff Michael and first flown in 2014, this airplane is faster than most IV-Ps. It is a must see! Don't let this speed machine pass you by! Aircraft is sold AS-IS.</p>
