<b>Airframe Details:</b>	<p>The SR20 is a low-wing, four-seat composite monoplane with a very high build quality. Smooth, long wingspan give it a sleek, modern look. Free-castering nosewheel allows tight turns, and excellent forward visibility due to the low-profile panel. The side-stick "side yoke", offering intuitive control of mixture, boost, and flap controls are well-placed, and the ability to push forward and accelerate with control. A Cirrus Airframe Parachute System (CAPS). This, combined with its advanced avionics, makes it a desirable for both flight training and personal travel.</p>
